Introduction & Rationale

- ❖ Extensive livestock systems → contribute to local economies and preserve landscape.
- ❖ Multiple challenges that threaten their viability.
- ❖ Innovative technologies?
- ❖ **DIGI-Rangeland** project → sharing knowledge on digital technologies

What did we do in Scotland?

Workshop to identify & **prioritise** farmers' needs and challenges.

15 farmers, advisers & researchers, meat sheep & cattle

3 thematic areas:

- Management & farming practices
- Land use sharing
- Promote products & services
